RED WINE

"Albola stands in the middle of a broad expanse of vineyards that provide the most exquisite wines". This is how the historian Emanuele Repetti described the wines of Castello di Albola in his Dizionario Geografico Fisico e Storico in 1833. Chianti Classico DOCG Castello di Albola is made with grapes cultivated according to tradition, a pure and authentic expression of the specific soil types found in Radda in Chianti. It stands out for its elegance, smoothness and great longevity.
