

## **The role of Territorial District in migrants' integration policies**

*Proposals for the growth of the culture of social integration and business competitiveness within wine-producing districts that intend to implement their sustainable practices.*

The permanent working table Vino – Lavoro, promoted by Equalitas and Luci Sul Lavoro, the meeting aims to evaluate the challenges that organised wine-producing districts must face. Furthermore, to assess the opportunities that can be seized within a social and economic context where migrants have an increasingly crucial role.

Alongside the fight against illegality and labour exploitation, the challenge is to generate virtuous models that put together cohesive and widespread social welfare and competitiveness of companies in an environment where are already established important dialogue and government networks.

**Friday 8<sup>th</sup> July 2022 / From 10.00 to 13.00 / Fortezza di Montepulciano - SALA 3 Bonelli (Live on Luci Sul Lavoro Facebook homepage)**
